Big Motoring World in Kent boast the biggest selection of [used BMW Maidstone](#) . Whether you are searching for a BMW 1 Series used or a big sporty 645i Convertible, they will have the right used cars for you to test drive. I went there last week with my wife, as I decided to upgrade her used Honda for a 118d. We found one in the latest paint colour called Alpine White, which was only 1 previous owner and with a full BMW service history. My wife had a test drive in this car and found it extremely easy to change gear and to park. These were two critical factors to consider as she has always experienced issues of this nature whilst driving her current car.
